

REK-O-KUT DE-HISSER

THREE NOISE REDUCTION SYSTEMS IN ONE

for modern stereo LP records, vintage 78s, and tape recordings

The **Rek-O-Kut De-Hisser** removes annoying hiss and noise from both vintage and modern phonograph records as well as tape recordings of any form at.

The **Rek-O-Kut De-Hisser** is actually three products in one: a background hiss reducer, a left/right groove wall selector for mono records, and a low frequency noise filter (rumble filter).

GROOVE WALL SELECTOR switch permits you to select the least noisy groove wall of a mono record. In addition, The **Rek-O-Kut De-Hisser** features a unique circuit which cancels out rumble and similar noises that are common to both groove walls. Other switching circuits (left only or right only) permit low frequency noises (rumble) to be heard unimpeded. Our added circuitry removes the rumble and not the bass.

HISS REMOVAL is accomplished not by a commonly used, variable hi-cut circuit, but by selecting band passes within the high frequency spectrum that accommodate the program material. This results in almost no audible pumping of hiss with program material and excellent performance with even spoken word. In addition, there are no digital artifacts as associated with digital and computer software noise reduction schemes. 10 dB of hiss reduction is provided for both vintage records and modern, stereo LPs.

THE LO-CUT switch can select two amounts of low frequency noise attenuation. The 40 Hz position will suffice for many noise plagued LP records and 78s, while the 80 Hz position may prove useful with old acoustic records, records with hum, severe warps, or records requiring extreme bass boost.

SPECIFICATIONS:

Frequency Response:	20-20 kHz, +/- 0.5 dB
Signal to Noise Ratio:	>90 dBA
Distortion:	0.05%
Noise Reduction:	10 dB
Min. Audio Response:	2.5 kHz
Max Signal:	4 Volts RMS
Controls:	Input, Lo-Cut, Dehiss, Bypass
Low Cut:	40 Hz, 80 Hz
Power source:	120/240 VAC, 50/60 Hz
Dimensions:	19" x 1-3/4" X 7"
Weight:	5 lbs
Accessories:	Universal Wood Cabinet

REMOVES THE NOISE, NOT THE MUSIC!

PRICE: \$549.00, WALNUT CASE: \$110.00. US SHIPPING: \$12.00 - W/CASE: \$14.00
